

Pneumatic collection containers

- Set up in seconds
- High resistance

Collect and store large volumes of hazardous materials.

The easy solution for temporary storage. Contaminated and hazardous liquids must be stopped in their tracks straight away. Vetter's pneumatic collection containers can be set up in seconds, buying you valuable time. They create secure reservoirs, which your team can simply pump out at a later stage.

Technical Data

Uniform height of 95 cm (37 inch).

- Working pressure: 0.5 bar (7.25 psi)
- Test pressure: 0.65 bar (9.4 psi)

Product	Art.-Nr.	0	1	2	3	4	5	6	7	8
PAB 3.000	1510000101	25	106	42 x 28 x 12	7.25	9.4	37	104	88	73
PAB 5.000	1510004001	30	177	73 x 33 x 16	7.25	9.4	37	126	110	97

Column definitions:

- 0: Air requirement, at working pressure [cu. ft.]
1: Capacity [cu. ft.]
2: Folded size (L x W x H) [inch]
3: Working pressure [psi]
4: Test pressure [psi]
5: Height [inch]
6: Outer diameter [inch]
7: Inner diameter [inch]
8: Weight, approx. [lbs]
