Air CU Deadman

Art.-Nr. 800019900

The first controller to light up the night.To make sure night-time does not become an obstacle, we have now developed the first control unit that light up the night for you.With illuminated manometers and LEDs on the control panel and on the back, you gain full control even in the dark!Our new Air CU delights with its comfortable handling and a new design. The integrated and sturdy carrying handles ease every movement and the improved strap balances the control unit in an optimal operating position. With the new input manometer, you will never lose sight of the input and output pressure.
