

Medical shelter

Art.-Nr. 1523027800

MT-Line - Versatile. Flexible. Well thought out. The MT line from Vetter provides convincing versatility, top quality and many well thought-out features that make your work easier. Thanks to its usable width of 5.5 m, there is still a passage of 1.50 m for medical staff and devices when the beds are placed crosswise. Four sizes and a docking shelter. You can choose between four different shelter lengths with useful areas between 20 m² and 60 m². We also offer a docking shelter with which you can set up a tent city or connect individual shelter with each other. Save staff and time. The shelters are designed in such a way that from transport to erection and dismantling of the shelter, the deployment can be carried out in the most personnel- and time-saving manner possible. This means: Self-erecting support frame, low weight, compact pack size and easy handling. Equipment PREMIUM set in detail: shelter frame including tensioning ropes, throw-over tarpaulin with separately removable entrance, two tarpaulins independent connection options, patented securing net in the roof area (removable), sufficient number of windows, removable tent floor (barrier-free). Four feedthrough openings, two on each side of the shelter. Equipment BASIC set in detail: shelter frame including tensioning ropes, throw-over tarpaulin with separately removable entrance, tarpaulins two independent connection options, removable tent floor (barrier-free), two feedthroughs, one on each side of the shelter (diagonal).

Technical Data

Weight [kg]:	135
Usable area [m ²]:	45 - Andockzelt
Model:	Premium
set up time [sec]:	300
Outer size [inch]:	259,84 x 259,84 x 129,92
inner size [inch]:	259,84 x 259,84 x 119,29
Air requirement [l]:	4567
Packing dimensions [inch]:	43,31 x 33,46 x 33,46
