

Sealing Bags

Art.-Nr. 1480001901

The classics. Vetter Pipe Sealing bags are the optimum solution when quick and reliable sealing of drainage is required. A big advantage of the sealing bags are their freely selectable contact pressure (on the pipe wall): from 0.5 bar to 2.5 bar / 7.25 psi to 36.25 psi. The areas of operation are, among others: sealing off sewer pipelines during repair or maintenance work avoiding sewage backflow at the source location during pipe bursts, flooding, sewer inspection, sewer cleaning, repair and maintenance work. Due to numerous application possibilities, sealing bags are used in different branches of industry, such as road construction and civil engineering companies, sewer constructors, water authorities and industry. Vetter Pipe Sealing bags can be used for the sealing test according to DIN EN 1610.

Technical Data

Weight [kg]:	27
operating pressure:	1,5 bar / 21,76 psi
Pipe diameter :	60-120 cm / 23,62 - 47,24 inch
Diameter :	58 cm / 22,83 inch
Cylinder length:	132 cm / 51,97 inch
Total length:	136,5 cm / 53,74 inch
Air requirement [l]:	2475
