

Flexible Packers

Art.-Nr. 1491046001

The adaptable solution. Vetter flexible packers are the flexible solution for drain reconstruction. They are made of a rubber sleeve that is vulcanised onto metal heads. The interior tube lets the water flow off during the repair work. The open safety coupling with a lock pin prevents unwanted decoupling. The flexible construction means it is easy to conduct the packer through a manhole and install it in the damaged line. The carriage has a slight spring action and can be flexibly adjusted to match the pipe diameter. On top of that, the runner-shaped carriage facilitates smooth sliding, even over offsets. The wheels are set at a 120° angle, which ensures easy packer penetration. The Vetter flexible packers are available in 3 sizes for pipe diameters from 150 - 600 mm (6 - 24 inch) and lengths up to 3 m (9.84 ft.). Standard through-flow openings of 2"

Technical Data

Weight [kg]:	10
operating pressure:	1,5 bar / 21,76 psi
Length:	2000 mm / 78,74 inch
Application area :	150-250 mm / 5,91 - 9,84 inch
Application length (d max):	1680 mm / 66,14 inch
Application length (d min) :	1780 mm / 70,08 inch
Diameter :	10,5 cm / 4,13 inch
Chassis length :	213 cm / 83,86 inch
