

## Flexible Packers

Art.-Nr. 1491066700

The adaptable solution. Vetter flexible packers are the flexible solution for drain reconstruction. They are made of a rubber sleeve that is vulcanised onto metal heads. The interior tube lets the water flow off during the repair work. The open safety coupling with a lock pin prevents unwanted decoupling. The flexible construction means it is easy to conduct the packer through a manhole and install it in the damaged line. The carriage has a slight spring action and can be flexibly adjusted to match the pipe diameter. On top of that, the runner-shaped carriage facilitates smooth sliding, even over offsets. The wheels are set at a 120° angle, which ensures easy packer penetration. The Vetter flexible packers are available in 3 sizes for pipe diameters from 150 - 600 mm (6 - 24 inch) and lengths up to 3 m (9.84 ft.).

## Technical Data

Weight [kg]:	16,5
burst pressure [psi]:	21,76
Length [inch]:	59,06
Application area [inch]:	11,81-15,75
Application length (d max) [inch]:	7,31
Application length (d min) [inch]:	45,67
Diameter [inch]:	9,06
Chassis length [inch]:	65,75
