

# Test Sealing Bags for Gullies

- short, simple design
- lightweight
- for tests according to DIN EN 1610
- made from highly durable CR

## for testing gullies according to DIN EN 1610

Our Test Sealing Bags for Gullies are highly reliable and make leak testing simple. Using only 1 bar of pressure, they can be used for tests using air or vacuum. Our Test Sealing Bags for Gullies are designed for flexible use in manholes.
