

Oil Water Debris Aspirator (OWDA)

- For suctioning liquids, debris and granular solids
- Capacity of 100 l (3.5 cu.ft.)
- Lid also fits 200 l (7 cu.ft.) standard rolling hoop drums
- Hazardous liquids can be suctioned directly into drums
- Drums can be securely sealed and transported

The specialist for debris and granulated material

Vetter will not leave you out in the rain. Our high-performance aspirator range was specifically developed for fire services.

As a hazardous materials specialist with many years of practical experience, Vetter is well acquainted with your needs. That is why we manufacture the collection containers of our oil and water aspirators using sturdy glass-fibre-reinforced polyester, thus guaranteeing excellent resistance to chemicals. To ensure your safety, all appliances have spark suppression and are also completely earthed from the suction pipe to the cable.

Technical Data

Information to the motor head

- Current consumption: 4,6 Ampere (amps)
- Power consumption: 1000 Watt
- Voltage: 240/50/60 V/Hz
