

50 Years
Reliable. Every time. Everywhere.

Emergency Pneumatics.

Air CU deadman

The first controller to light up the night.

- › made for use with Vetter lifting bags
- › illuminated version
- › increased convenience and new design
- › complies with EN 13731:2008

It can't be undone. But what happens now is up to you.

Air CU*, so night is no longer an obstacle.

Sturdy and rugged

Protected inlet and outlet couplings, rubber feet

Easy to handle

Sturdy, built-in handles and improved harness

Inlet and outlet pressure at a glance

With inlet pressure gauge

Complete control – even in the dark

Glowing pressure gauges; optional: illuminated controls and pressure gauge, LED on the back

In operation with ...

- › S.Tec 12 Lifting Bags (12 bar / 174 psi)
- › C.Tec Connectable Bags (10 bar / 145 psi)
- › Ultra flat bags S.Tec (10 bar / 145 psi)
- › Mini lifting bags (8 bar / 116 psi)
- › Wedge lifting bags (1 bar / 14.5 psi)
- › Lifting bags (1 bar / 14.5 psi)

Good reasons:

- › work safely in the dark thanks to glowing pressure gauges; illuminated controls and pressure gauge, LEDs on front and back
- › easy to carry with improved harness for balanced positioning of the controller in optimum working position
- › control levers easy to reach
- › protected inlet and outlet couplings
- › direct rescue manoeuvres with millimetre precision

Guaranteed quality:

- › made in Germany
- › complies with EN 13731:2008 standard
- › independently tested / TÜV certified
- › clearly visible: serial number embossed on bottom

Technical data

Measurements

Dimensions approx. 337 x 262 x 160 mm / 13 x 10 x 6 inch

Weight With lighting: approx. 4 kg / 8.8 lbs

Part numbers

0100005000 Air CU 1 bar (14.5 psi) deadman, lighting

0800019900 Air CU 8 bar (116 psi) deadman, lighting

1000009100 Air CU 10 bar (145 psi) deadman, lighting

1200001700 Air CU 12 bar (174 psi) deadman, lighting

Battery not included.

We recommend a 9-volt lithium battery.

C U at the next operation.
